PREMIUM SAKE

Honjozo Daiginjo

Temahima Yamagata 720ml **150**
SMV: +0.5 Acidity: 1.3

This remarkably refined and delicate sake is milled down to 40% to allow the rice to truly shine through. A touch of brewers alcohol is added to increase the distinct nose and bring out the deeper flavors in this delicate soft sake.

Junmai Daiginjo

Temahima Yamagata 720ml **165**
SMV: +0.5 Acidity: 1.3

This sake, similar to the Honjozo, is also milled down to 40% to allow the rice to shine through. The rice is allowed to stand alone as it is brewed with the clean, soft waters of the Yamagata Prefecture.

Takasago "Divine Droplets" Hokkaido 720ml **135**
SMV: +3 Acidity: 1.2

This ultra-premium sake is the only sake drip-pressed, or "shizuku", in an igloo. The 28° F temperatures and 90% humidity creates an uninhabitable environment for bacteria making it one of the most pure sake in the world. The mineral flavors are complimented with lychee, melon, herbs, and vanilla into a long clean finish.

Kubota Manju "10,000 Long Lives" Niigata 720ml **150**
SMV: +2 Acidity: 1.2

This unbelievably clean sake is perhaps too drinkable, with the phantom finish leaving you wondering if you ever swallowed. A nose balanced between honeysuckle and white flowers gives way to a bright, citrusy palate including fuji apple and tart pear.

Suehiro Ken "The Sword" Fukushima 720ml **160**
SMV: +4 Acidity: 1.3

A dry sake that provides a vibrant nose filled with notes of watermelon, strawberry, and cantaloupe. The twangy palate is highlighted with strong minerality and notes of ginger, anise, and grapefruit. A beautifully balanced Junmai Daiginjo that still has attitude.

Dassai 23 "Otter Festival" Yamaguchi 720ml **180**
SMV: +3.5 Acidity: 1.4

One of Japan's most highly polished sake with just 23% of the grain remaining. A nose bursting with flowers, honeydew, grapes and the strong minerality from the water does not disappoint. A palate full of fleshy plums and crisp honeydew proves why this is the standard for premium sake.
